

REVIEWING SAFETY EVENTS IN MOTIVE

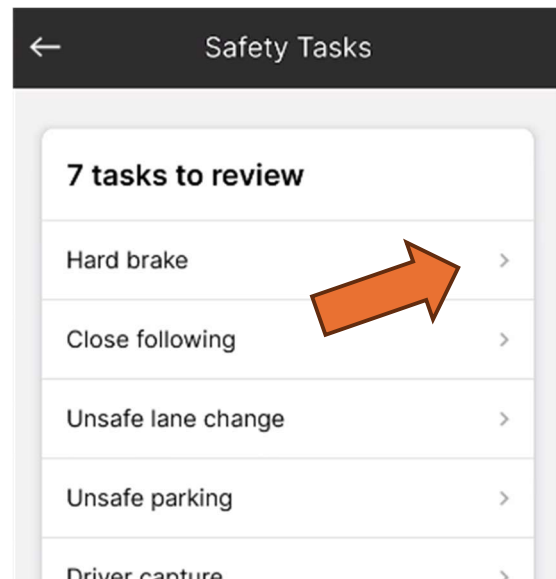

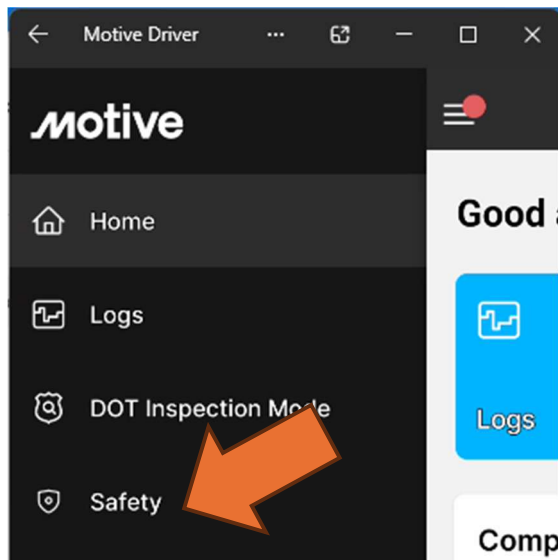

IT IS VITAL THAT DRIVERS REVIEW SAFETY EVENTS AND MARK REVIEWED.

From any screen please select the menu

Select "tasks to review"

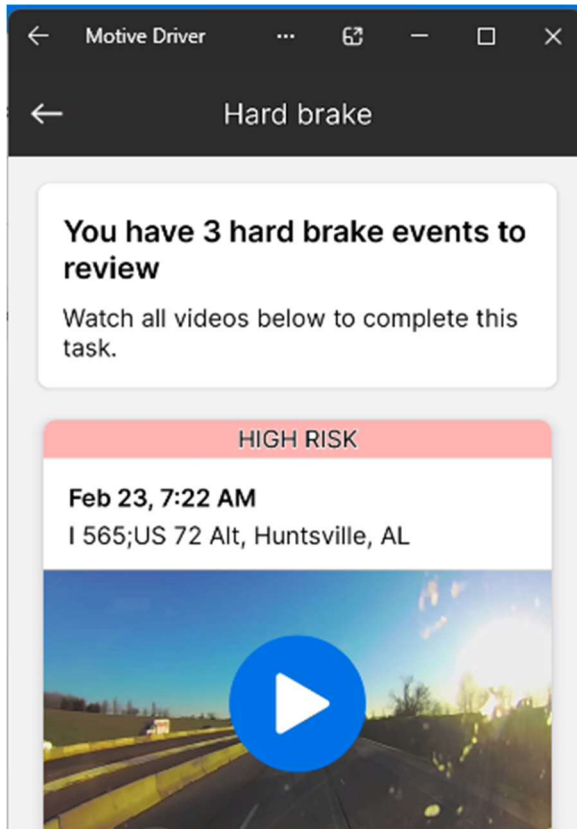

Then select Safety

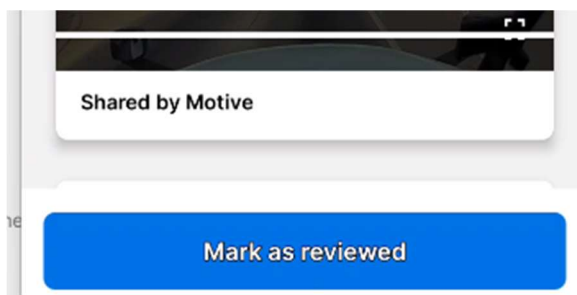

This will provide your current Safety Score and Tasks.

REVIEWING SAFETY EVENTS IN MOTIVE

This will provide access to the videos you need to review.

You must watch the entire length of all videos in that category. Once you have watched then you must Mark as Reviewed

There are insights and coaching options also available.

Your score needs to remain above 80.

Although there are other triggers to receive alerts, the following are the only to count against your safety score.

1. **Close Following** – *double points*.
2. Hard Braking
3. Speeding
4. Stop Sign violation
5. Hard Cornering.

These are all high risk activities, that can result in loss.

As some of these events are AI generated, in the case you feel the event should not have triggered a safety event, you must let me know as soon as possible. If I remove the event prior to cutoff, it will not impact your score.
